ITALIANS

To Take Active Part in New Campaign in the Balkans

WAR WITH GERMANY

Presence of German Troops Along Macedonian Front May Make This Action by Italy Necessary—Germans Make Determined Effort to Retake City of Fleury

The following summary of war statements issued by European nations, is prepared by the Associated Press:

Italian troops are to take part in the important campaign just opening in the Balkans, according to advices received today which report the disembarkation of Italian soldiers at that port now in progress. German troops are employed on the Macedonian front and actual war between Germany and Italy of which thus far there has been no formal declaration, now seems probable.

The Macedonian campaign itself does not yet seem to have developed an engagement of first rate magnitude, but there is pronounced activity along the 150 mile fighting front, with successes claimed by each side at various points.

In entente quarters there is said to be no apprehension felt that General Sarraill, the entente commander will be interfered with by the German and Bulgarian attacks on the allied flank. Greece, however, is reported to be disquieted over the advance of the Greeks toward Kavala, the Greek seaport east of the allied front, and the southward move of the Bulgarians on the other flank, which resulted in the occupation of Florina.

On the Verdun region the Germans who again lost the village of Fleury northeast of the citadel, in fighting last week, are making determined efforts to regain the place. Last night they drove against the village with strong forces, using flaming liquid to aid their attacks, but according to today's bulletin, the French fire effectively stopped the assault.

Along the Somme front in northern France the artillery battle is raging violently. No infantry actions are reported by Paris, however, although a German counter-attack apparently is in preparation following the capture by the French of a strongly fortified wood between Guillemont and Maurepas, northwest of Peronne, announced last night.

Land Grant For Japs Near Canal Will Be Probed

(Associated Press Telegram)
Washington, Aug. 21.—Investigation of reports from Panama that a 60,000-acre land concession at the Atlantic end of the canal is being sought by a Spaniard named Fernandez, presumably for Japanese interests, was ordered today by Secretary Lansing.

Mr. Lansing refused to discuss the report in detail but it was considered significant that the department should commence its action. Rumors of a similar nature have been common ever since the canal was well under way.

At that time it was commonly believed in diplomatic circles that private Japanese shipping interests were seeking land to establish a base.

KING CONSTANTINE CLOSELY GUARDED AS ELECTIONS DRAW NEAR

(Associated Press Telegram)
Athens, via London, Aug. 21.—The royal party in Greece is taking extraordinary precautions preparatory to the coming election. King Constantine constantly is guarded and visits the capital on rare occasions. On the journeys, a cordon of soldiers constituting a brigade guards every approach to the royal party. Between the king's summer villa at Tatoi, and Athens, mounted police armed with rifles are stationed at frequent intervals and none is allowed to pass without a permit.

RUSSIANS MOVE FORWARD ALONG STOKHOD FRONT

(Associated Press Telegram)
Petrograd, Aug. 21, via London.—The Russians have made further advance at some points along the Stokhod line, where they broke through the Austro-Hungarian defenses last week, the war office announced today. The capture of more than 1,300 men in this region in two days is reported.

SPREAD OF PLAGUE IN MASSACHUSETTS HAS BEEN CHECKED

(Associated Press Telegram)
Boston, Aug. 21.—Spread of infantile paralysis in this state, developing gradually for several weeks, has been checked temporarily at least, according to reports received by the state department of health today. Only ten cases were discovered within the last 48 hours, officials said, although daily reports recently have shown that the epidemic is still active.

One of the most important nights at the suffrage convention to be held at Atlantic City in September will be the occasions of discussions on why "Women Need the Vote."

20,000 ATTENDED CATHOLIC MEET IN NEW YORK CITY

(Associated Press Telegram)
New York, Aug. 21.—Business sessions of the American Federation of Catholic societies and allied organizations began here today with nearly 20,000 delegates attending. "Catholic Week," with a series of meetings and ceremonies which are to be continued to and including Friday, was inaugurated by three cardinals and the apostolic delegate, as well as most of the delegates to the federation. This was followed by a mass meeting of the federation which brought out 15,000 delegates in the evening to listen to addresses by Cardinal Gibbons, O'Connell and Farley and others.

The opening session of the federation today was devoted in part of hearing the reports of the national president, John Whalen, and of the national secretary, Anthony Matre. At the afternoon session, the delegates will hear a report of the commission on public morals and social service problems will be considered at a mass meeting this evening. Sessions of the Catholic Young Men's National Union, the Catholic Women's Union and the state league of Catholic societies were held this morning and afternoon and there will be a mass meeting of the Catholic women tonight.

VILLA CHIEF TOOK EARS OF PRISONERS IS STORY OF ONE

(Associated Press Telegram)
El Paso, Tex., Aug. 21.—The story of a Villa chief with his own hands cutting off the ears of twenty prisoners who later were shot, is told by a rescued prisoner in El Democrata of Chihuahua City, copies of which arrived here today. The chief who committed the atrocity was Baudelio Uribe, commander during Villa's recent raid on Jimenez.

Uribe captured a small body of de facto government soldiers, according to the witness, and called on them to join his band. Twenty failed to respond. Finding them stubborn, Uribe trimmed their ears and then ordered a captain to shoot them. This order was carried out just as a rescuing party came up. The bodies were recovered by the government troops.

FORMER SALOONIST TAKES TORATORATE OF CHICAGO CHURCH

(Associated Press Telegram)
Chicago, Aug. 21.—The Rev. William M. Saunders has deserted the saloon business for the pulpit. Rev. Saunders who formerly conducted a saloon in Smithton, Pa., has been appointed pastor of the Avondale Presbyterian church here. When Saunders decided a few years ago to devote his life to the ministry he closed his bar and entered the McCormick Theological Seminary as a student.

LEGALITY

Of Tax Valuations Will Be Determined by Supreme Court

SUITS ARE BEING HEARD

Valuations All Over State Are Dependent Upon Decision—Original Actions Were Brought In Cuyahoga County Where Court of Appeals Held All Valuations Invalid

(Associated Press Telegram)
Columbus, Aug. 21.—Ohio Supreme court judges this afternoon began hearing on two suits filed in Cuyahoga county to determine the legality of the 1916 tax valuations. The court of appeals held that the valuations of this year were invalid inasmuch as complete valuations were not made by county auditors under the Parrett-Whittemore law passed by the last legislature.

The decision of the supreme court will be of interest throughout the state as taxing authorities in many other counties are said to have followed the same plan as those in Cuyahoga county.

Closely related to this suit is the other from Cuyahoga county involving the revaluation of property in the business district of Cleveland. The tax commissioners, it is charged, made a revaluation of property in one district and the court of appeals held that this action was discriminatory. The loss in taxes, if the court of appeals is upheld, will seriously affect the finances of the city of Cleveland, it is said.

TEMPERATURE CLIMBS AGAIN; DEMAND FOR ICE

Today has been (and still is) within one degree of being the hottest here this summer. It was 97 in the shade at J. C. Brown's grocery on East Main street at two o'clock today. It was 94 in the shade Saturday while the highest official temperature recorded here this summer was 98.

Saturday brought the heaviest demand of the present season for ice, according to ice delivermen. The plant of the Newark Ice and Cold Storage company was kept in operation at top speed and in spite of this fact, it was but 1200 pounds ahead of deliveries when the wagons finished up Saturday night.

SWIMMER IS HURT IN POOL AT DAM; BAD CUT ON LEG

Vincent Willis, aged 25, 91 Canal street, while diving off of a diving board on the east side of the North Fork at the dam, struck some obstruction which cut his left leg so badly that surgeons took 14 stitches to the Newark Mr. Willis was taken in the Newark Sanitarium in the Bradley ambulance. The young man lived too close to the shore and it is thought that his foot caught on a root. He is resting comfortably at his home.

ITALIANS SEND MORE TROOPS TO THE BALKANS

Paris, Aug. 21.—Italian troops began to disembark at Saloniki yesterday, says a Havas dispatch from that point.

On leaving their ships, the dispatch says, the Italians passed through Saloniki to camp, preceded by military bands of the allies and cheered by the populace.

Active participation by Italian troops in the Saloniki campaign would mean the existence of a state of war between Germany and Italy. Germany is directing the operations against the allies on this front and as the official German reports show, has forces there.

WOMAN ASSAULTED AT CEDAR POINT; TWO MEN UNDER ARREST

Cedar Point, O., Aug. 21.—Two suspects have been arrested in connection with the assault made by five men Saturday night on Mrs. Louis Eisenmann, of Cleveland. Mrs. Eisenmann will issue a statement as soon as she is able to leave Cedar Point, near which place she was assaulted. She was waiting for a boat when she was seized by two men and carried into the woods, where three other men joined the other two. She was assaulted by all five. Later four fell asleep, leaving one on guard. Mrs. Eisenmann bribed him with two diamond rings to let her go.

AGED MAN ASKS DIVORCE.
Marysville, O., Aug. 21.—Isaac Staley, 62, has sued for divorce from his wife, Hannah, charging she has been unfaithful. He also says when he went to Springfield on a visit she packed up the household goods and left him.

ROBERT BACON'S PLATFORM WILL BE UNIVERSAL MILITARY SERVICE

Left, Robert Bacon; right, General Pershing.

New York, Aug. 21.—(Special)
—Robert Bacon, former secretary of state and ambassador to France, who is opposing the nomination of William M. Calder of Brooklyn for United States senator from New York and whose candidacy was announced a short time ago, is going into the political battle with the backing of Roosevelt.

Preparedness is the principal issue of the campaign, and Bacon is intensely interested in the subject in all its phases. He is not only chairman of the executive committee of the national security league, but he is a member of several other military

preparedness and patriotic organizations as well.

Bacon will have a hard fight as the organization machine is unqualifiedly supporting Calder, and Governor Whitman has included Calder's name in the list of Republican candidates who would accept the invitation to enter the Progressive primary.

Bacon's candidacy caused a great deal of surprise, especially in financial quarters, where he was connected with Morgan and Company for some years. The first report some time ago that Mr. Bacon was being urged to run was said to have come from Morgan and Company but was denied.

Dr. John A. Mitchell Drowns In Canadian Lake; Body is Found After Long Search

(Special to Advocate.)
Quebec, August 21.—News has reached Quebec of the accidental drowning at Lac Des Passes in the Triton club reserve near Lake Edward of Dr. John A. Mitchell of Newark, Ohio, on Friday afternoon. Dr. Mitchell, a member of Triton club was on a camping trip accompanied by his wife and the Dr. and Mrs. E. W. Hunt, all members of the club.

While bathing in front of the camp in full view of the rest of the party he was noticed to have stopped swimming or making movement of any kind and slowly sink. Dr. Hunt accompanied by his daughter, hurried to the spot in a canoe but could see no sign or bubble to mark where he had gone down.

Mr. Mitchell accompanied by one of the Misses Hunt passed through Quebec on her way home on Saturday while a strong party of guides under the direction of the Rev. Dr. Hunt are engaged in searching for the body today. The body has just been recovered.

Dr. John A. Mitchell, 63 years old, 69 Hudson avenue, for years a leading physician and surgeon of this city, Saturday while bathing in a lake near his camp on the Triton grounds, 200 miles north of Quebec, was seized with cramps and sank to his death before assistance could reach him.

Late this afternoon a message was received by Dr. Louis A. Mitchell, a son, from Miss Helen Hunt, of Montreal, stating that the body had been recovered and that definite plans would be wired later. A score of men began the search for Dr. Mitchell's body Saturday and have continued the search constantly since then. It was feared that the body would not be recovered before several days or a week had elapsed, on account of the great depth of the lake.

The place where Dr. Mitchell is believed to have drowned is estimated to be more than 100 feet deep according to Attorney A. A. Stasel, a brother in law of Dr. Mitchell.

"The lake in some places is from 200 to 300 feet deep," Mr. Stasel said, "and the steep character of its banks will make the finding of the body very difficult."

According to Mr. Stasel, Dr. Mitchell had not been in good health for the past several weeks and recently decided to visit the camp in the wilds of Canada, owned by the deceased and a man by the name of Annin, of Toledo. Mrs. Mitchell accompanied her husband on his trip in search of recreation.

Last Friday the Newark people were joined in camp by Dr. Emory W. Hunt, former president of DeVos University, his wife and two daughters, who expected to visit Dr. and Mrs. Mitchell for a couple of weeks.

According to the belief of Mr. Stasel, Dr. Mitchell had stolen quietly away from the camp for a cool plunge.

"The water is very cold at times and it is probable that the doctor after having a bath near the shore, swam out into the lake and was seized with cramps," Mr. Stasel said. "I have been with Dr. Mitchell on a number of trips and am familiar with his habits. He was an excellent swimmer, but more than likely was too far from shore to get assistance."

Paul Mitchell, a son, residing in Pittsburgh, left immediately for his father's camp, when notified of the drowning and will take charge of the search for the body.

Mr. Mitchell wired his brother Dr. Louis A. Mitchell, here that with Dr. Hunt he was starting from Montreal for the camp and expected to reach there today. He said that Mrs. Mitchell was with Miss Helen Hunt in Montreal and might start for Newark any time. He advised Dr. Mitchell to remain here pending a wire later.

Attorney A. A. Stasel, who was spending his vacation at North Bay, was notified by wire Saturday night to go to Montreal, but the message did not reach Mr. Stasel, as he had already departed for Newark. He did not know of the accident until after his arrival here.

Mrs. Mitchell, transacting business in Montreal, did not know of the accident until notified by wire by Dr. Hunt. She was joined in Montreal a short time later by Dr. Hunt and his daughter Helen. Miss Hunt remained with Mrs. Mitchell, who is suffering from the shock of her husband's death.

Austrians Report Successes Along the Eastern Line

(Associated Press Telegram)
Berlin, Aug. 21. (By Wireless to Sayville).—The Austrian headquarters statement of August 19, received here from Vienna, contains the following regarding operations on the eastern front.

"Front of Archduke Charles Francis, west of the Moldava, in Bukovina. Honved Infantry and German battalions stormed the much disputed height of Magura. The Russians left 600 prisoners and two machine guns in our hands. Russian counter attacks failed.

"West of Sable we withdrew our advanced troops after violent fighting towards the Chornopura ridge. Near Stanislau to the northwest our riflemen repulsed a Russian advance.

"Front of Field Marshal von Hindenburg, our troops repulsed a Russian attack near Szelow. Near Tobol, on the Stokhod, the Russians advanced into our trenches but were thrown back. A new Russian attack is in progress.

A portion of the foregoing statement recording the Austrian position west of Sable was received by cable by way of London on Saturday night.

Operations on the Austro-Italian front are recorded in the Austrian headquarters statement of Aug. 19, as follows:

"The conditions on the coastal front yesterday were rather quiet. In the Isonzo sector northwest of Plava our troops cleared the left bank of weak hostile detachments near Globa and Britof, taking about 50 prisoners.

"An Italian night attack against the front of the sector south of the Vipbach valley was completely repulsed. On the Fiemstal front in an enterprise against hostile positions southeast of the Cima di Boche 60 prisoners and two hand grenade throwers were taken.

"Italian detachments advancing in the evening against our position in the Monte Zebic sector were repulsed."

NEWARK ODD FELLOWS AID IN DEDICATION BETHESDA HOSPITAL

More than one hundred Odd Fellows, including members of the Canlon Militant in full uniform, four members of the Zanesville yesterday over the Ohio Electric to participate in the dedication of Bethesda hospital by the grand lodge of Ohio.

The Newark delegation was accompanied by the Buckeye band and all participated in the parade which took place in the down town district at 1:30 o'clock in the afternoon. Other bands in the parade were the Seventh Regiment concert band of Zanesville, the Cambridge and the White Cottage bands.

Deputy Grand Master Frank S. Baugh of this city assisted Grand Master E. O. Peels of Cleveland in the dedication ceremonies, as did also Grand Secretary C. H. Lyman of Columbus. More than 2,000 Odd Fellows from subordinate lodges were present from neighboring cities and towns.

A number of people from this city drove to Zanesville Sunday afternoon over the national pike and witnessed the parade and dedicatory ceremonies.

Attack On Bride Will Delay Wedding Face is Slashed

SETTLEMENT

Plan Sought by Railway Heads to Preserve Principle of Arbitration

CONFER WITH PRESIDENT

Suggest Legislation to Create Commission With the Power to Investigate Any Threatened Trouble Between Employers and Employees—President Wilson Asks Another Conference

(Associated Press Telegram)
Washington, Aug. 21.—President Wilson called the railroad presidents to the White House again this afternoon for another conference.

It had been expected the conference would be no further move until tomorrow but when the western men began arriving today the railroad managers canvassed the situation and found that all the executives who could reach the capital within a reasonable time already had arrived. They so advised the White House and the President invited them to conference at 2:30 o'clock.

The railway heads spent several hours today trying to devise some form of settlement of the threatened strike which would still preserve the principle of arbitration and be one which President Wilson could prevail upon the men to accept.

One of the suggestions the railroad presidents were prepared to make at the White House was for legislation to create a board of commission to investigate when trouble threatens between employers and employees.

Under such a plan the board would be created by act of congress and would probably be empowered to examine witnesses to determine the merits of any controversy. Pending its investigation the employees would not be permitted to strike or to take a strike vote. After the board had reached its conclusions from the facts a public report would be made and there would be opportunity for arbitration would it not be compulsory. If arbitration were refused the board would send to each employee of the railroad interested a statement of the railroad's position on the matter, the employees' position and the board's findings. These statements would be before every employee when he came to vote on a strike and opportunity would be given for a secret ballot. The men would vote directly on the question of a strike. Under the present system the balloting is not secret and the men vote to delegate the power of declaring a strike to brotherhood officers.

It was understood that the railroad executives were not yet ready to present their final answer today to the President on his plan. The conference this afternoon was arranged to allow the officials who arrived here today to get the President's viewpoint first hand. Leaders of the railroad executives declared they were united against the President's plan as it stands and hoped to agree on some form of counter proposal.

The western railroad presidents summoned Saturday began coming in this morning. Louis W. Hill of the Great Northern, and E. F. Riley, the veteran president of the Santa Fe, were among the first. Neither had any statement to make.

The incoming executive conferred with those already here and the managers committee to familiarize themselves with the negotiations so far. All the western presidents are expected before tomorrow noon. By that time it is expected about 100 railway heads, representing properties valued at about ten billion dollars, will be assembled for the next conference with the President.

The brotherhood representatives held a brief meeting in their hall today but transacted no business. A few telegrams approving their stand in the situation were read and adjournment was taken until 10 o'clock tomorrow morning.

The men's meeting decided that brotherhood members should call on senators and representatives from their own states and acquaint them with the details of the men's side of the situation.

President Carter of the engineers was the only official who attended the session.

Some of the incoming railway presidents were more optimistic about the situation than those already here. One of the western men declared that if his road alone were involved he unquestionably would resist the demands of the men for the last hour of the men's side of the situation. It is believed that some common ground would be found to base a settlement.

President Wilson's suggestion in his telegram to Colonel Pease that some means be found for preventing a recurrence of the present situation and his advocacy of the principle of arbitration causing speculation as to what should be done. The President told the railroad executives that he did not believe compulsory arbitration was a permanent solution.

John C. Swartz, County Surveyor, is fast achieving a reputation, not only in his own county but in the state highway department, as an official who does things and gets what he goes after. He is an advocate of good roads, he believes in good roads and he can be found at all times working for good road legislation. He carefully conserves the interest of the taxpayer to every little detail of road construction and repairing. That is the reason that Licking county roads are so highly spoken of over the entire country, for thousands of tourists have traversed them and recommended them to their fellow tourists.

Mr. Swartz, is a product of Licking county and a graduate of Denison University. After leaving that institution of learning he accepted a position with the Columbia Gas and Electric Co. of W. Va., and went from there to Detroit where he served as a construction engineer on the new postoffice being built in the City of the Straits. He next accepted a position as construction superintendent with the National Company at South Bend, Ind., and was appointed surveyor of Licking county to fill an unexpired term caused by the death of his predecessor. He left South Bend and assumed the duties of office and as is known by everyone has more than made good. He was elected to office in the fall of 1914, and is again a candidate, asking for a second term. Mr. Swartz advocates that the roads should not be closed while making repairs, only where it is absolutely necessary, and then for the shortest time possible.

It is never a good plan to swap horses while crossing a stream of water—Abraham Lincoln.

The boys' enthusiasm for the wild life at boy camps may evaporate if they have to wash their hands before meals.

Most people's chief concern for the next month is recovering the weight they lost while resting on their vacations.

Another advantage of old home day is in enabling the poets to work off the accumulations that have been rejected by the county papers.

Many town anniversary celebrations are being held, and they are highly beneficial in allowing the prominent citizens to get speeches out of their systems.

Apparently the first result of the beneficial experience the soldier boys are getting on the border will be to resign from the militia just as quickly as they get home.

With the New York City schools not opening until November, the children should find the infant paralysis epidemic almost as joyful as a fire in the school house.

After deploring the horrors of the European war, it looks as if the quarrelling railroads and employees were going to starve the babies of the country by stopping the traffic that maintains the milk supply.

Resuming Work.

It is usually possible on the trains to distinguish the man who is returning from vacation from the one who is just starting. The former carries an air of depression. He is not alert to the sights and sounds and human contacts of the journey. Physically he is apt to look tired and thin as the result of over-doing. He tried to put a month's enjoyment into two weeks.

Human nature is indolent. Work is an acquired habit. After living a free and idle life, one has to pull oneself together to resume the eight or ten-hour daily grind.

Of course there are philosophical temperaments that make better use of rest time. The release from nervous strain of the daily tasks lets them look at their work from the outside in a more normal way. They

One of Hughes' Mistakes.

(New York Evening Post.)

From one position taken by Mr. Hughes we feel bound to express very positive dissent. We mean the constant intimation that the reaction in business immediately before the war was solely the result of "Democratic policies" (notably the lower tariff) and that only the outbreak of war saved us from something worse. We are aware of the extent to which this theory permeated the brain of the business community at the time; but we can hardly conceive a more narrow and purblind view of an economic situation.

Unquestionably, our industrial and financial markets were disordered, and depressed during the whole of 1913. But if "the Democratic tariff" did it all, then how came it that conditions in Europe were even worse, though exactly similar in kind? The answer is not difficult, and it is not the answer which is suggested by the stump speech economies of the day. In 1912 there was visible in this country practically every familiar sign of that great revival in trade which invariably follows the five or six years of after-panic retrenchment and readjustment.

Our exports broke all records, so did our bank exchanges, our iron production, our railway earnings. Experience had indicated that this might be 1898 or 1879 over again, under similar conditions. Then, in the autumn of 1912, the Balkan war broke out. Today we can better understand why that event was to political and financial Europe the handwriting on the wall. From that day forward, even the industrial communities of the world never abandoned the policy of reserve, caution and preparation for the coming crisis. Such a process meant entertainment or activity; abatement or visible prosperity, in every market of the world—not least in those of the United States, concerning which we are nowadays seemingly asked to believe that but for the "tariff of 1913," enacted a full year later, all would have continued to go well. Serious economic history is not based on such foolishness.

That American Plan.

(Collier's Weekly)

Some Philadelphia paper roused up once to record this dialogue: "Well, she makes him a good wife, doesn't she? Yes, indeed, and she makes him a good husband too." That's another angle on the modern American scheme (is there is one!) of family life. We are all accustomed to seeing the wife determine where the family is to live, what church they are to go to, where the children are to get their schooling, what lines of work the boys are to take up, what chances the girls are to have at getting married (except in so far as the younger women may have a say themselves), what standard of living the family is to maintain, etc., etc. But it's rather a shock to be told, even in jest, that she is also the master pilot of what should be their joint stock craft. What has become of the old-fashioned husband, with a touch of Dombey in him, who had a chart and compass of his own and an eye for the fixed stars of this life's sky? Have golf and the automobile so prolonged man's period of infancy that woman is now the maturer being and has to do the family steering?

William D. Fulton.

(Newark American Tribune, Rep.)
Licking County has been honored by the nomination of our fellow townsman, Mr. W. D. Fulton, as the Democratic candidate for Secretary of State. His vote, all things considered, was a very creditable, even a remarkable one.

It has been some years since the county has had a candidate on the State ticket of either party and many years since it has had a candidate nominated for an office as important as this one.

We hope and believe that this will be a Republican year. If it is so, a nomination on the Democratic ticket will not prove very valuable. If by any chance, however, the Democrats should be successful, we can all be glad that Licking County had a candidate, and that that candidate was Mr. Fulton.

We congratulate him upon his nomination and we congratulate the Democratic party upon nominating him.

Surprise to U.S.
The Bureau of Labor says the cost of living dropped 1 per cent in 1915. Strange that only the Bureau of Labor have noticed it.—Detroit Free Press.

Spirit of the Press

(Chicago Herald.)

Threatened Strike.
A general strike that would tie up the railway service for any length of time would be the most intolerable disaster that could befall the country. War itself could scarcely be worse, unless it could be a war in which the country were invaded and desolated. It would be a fight for existence all over the country. No wonder, people everywhere who realize the terrible meaning of a general railway tie-up are praying that the railway managers and trainmen will get together in an agreement that will avert the calamity.—St. Paul Pioneer Press.

Foreign Trade.

In the fight for foreign trade the American business man is confronted with a condition and not a theory. No matter what one may think of combinations in a field over which the nation has no jurisdiction can be successfully opposed by nothing save equally strong combinations. In the fight for the war should not see American business unprotected with this indispensable instrument and prop of export trade.—Chicago Herald.

Capture of Austrians.

Russia's capture of 375,000 Austrians and Germans in ten weeks probably makes a record for the present war. If this drama upon the strength of Austria-Hungary continues much longer it is difficult to see how she can avoid collapse. To Russia's big bag must be added Italy's prisoners and the vast number of men killed and wounded since General Brusiloff began his offensive on June 4. It is clear that easily 1,000,000 Austrians have been put out of action in the intervening time—an appalling figure when the resources of that country are considered.—Philadelphia Record.

On the Word of a King.

New Hampshire and Vermont are engaged in litigation in the United States Courts to determine the exact location of the boundary between the states. In 1764, by decree of the English king, the western boundary of New Hampshire was designated as the west bank of the Connecticut River, and this boundary was recognized by Vermont. In late years industrial establishments have been erected on made land adjoining the former west bank of the river, and the present proceeding is the result of the attempts of both states to levy taxes on this newly created property.—Christian Herald.

Working Up a Scare.

The machinery for working up a medical scare seems now to be fairly complete. In the old days people had to get their fear about epidemics by messengers. Now the press does the work, and how effectively. A few children in a population of over five million develop a disease which nobody knows anything about and which the doctors call infantile paralysis. In a few days the newspapers, by advertising, succeed in scaring into semi-hysterics all the female portion of the community. Thus we have two diseases: infantile paralysis among the children, and adult paralysis in the minds of the many.—Life.

Pointed Paragraphs

The Deutschland can make two more round trips and be back here in time for the world's series.—Pittsburgh Gazette Times.

The farmer at least has the consolation of knowing that a shorter wheat crop means higher prices for his product. This consolation, however, is not large enough to go around the whole country.—Chicago Herald.

"William Barnes comes out for Hughes." Hail, hail, the gang's all here.—Louisville Courier-Journal.

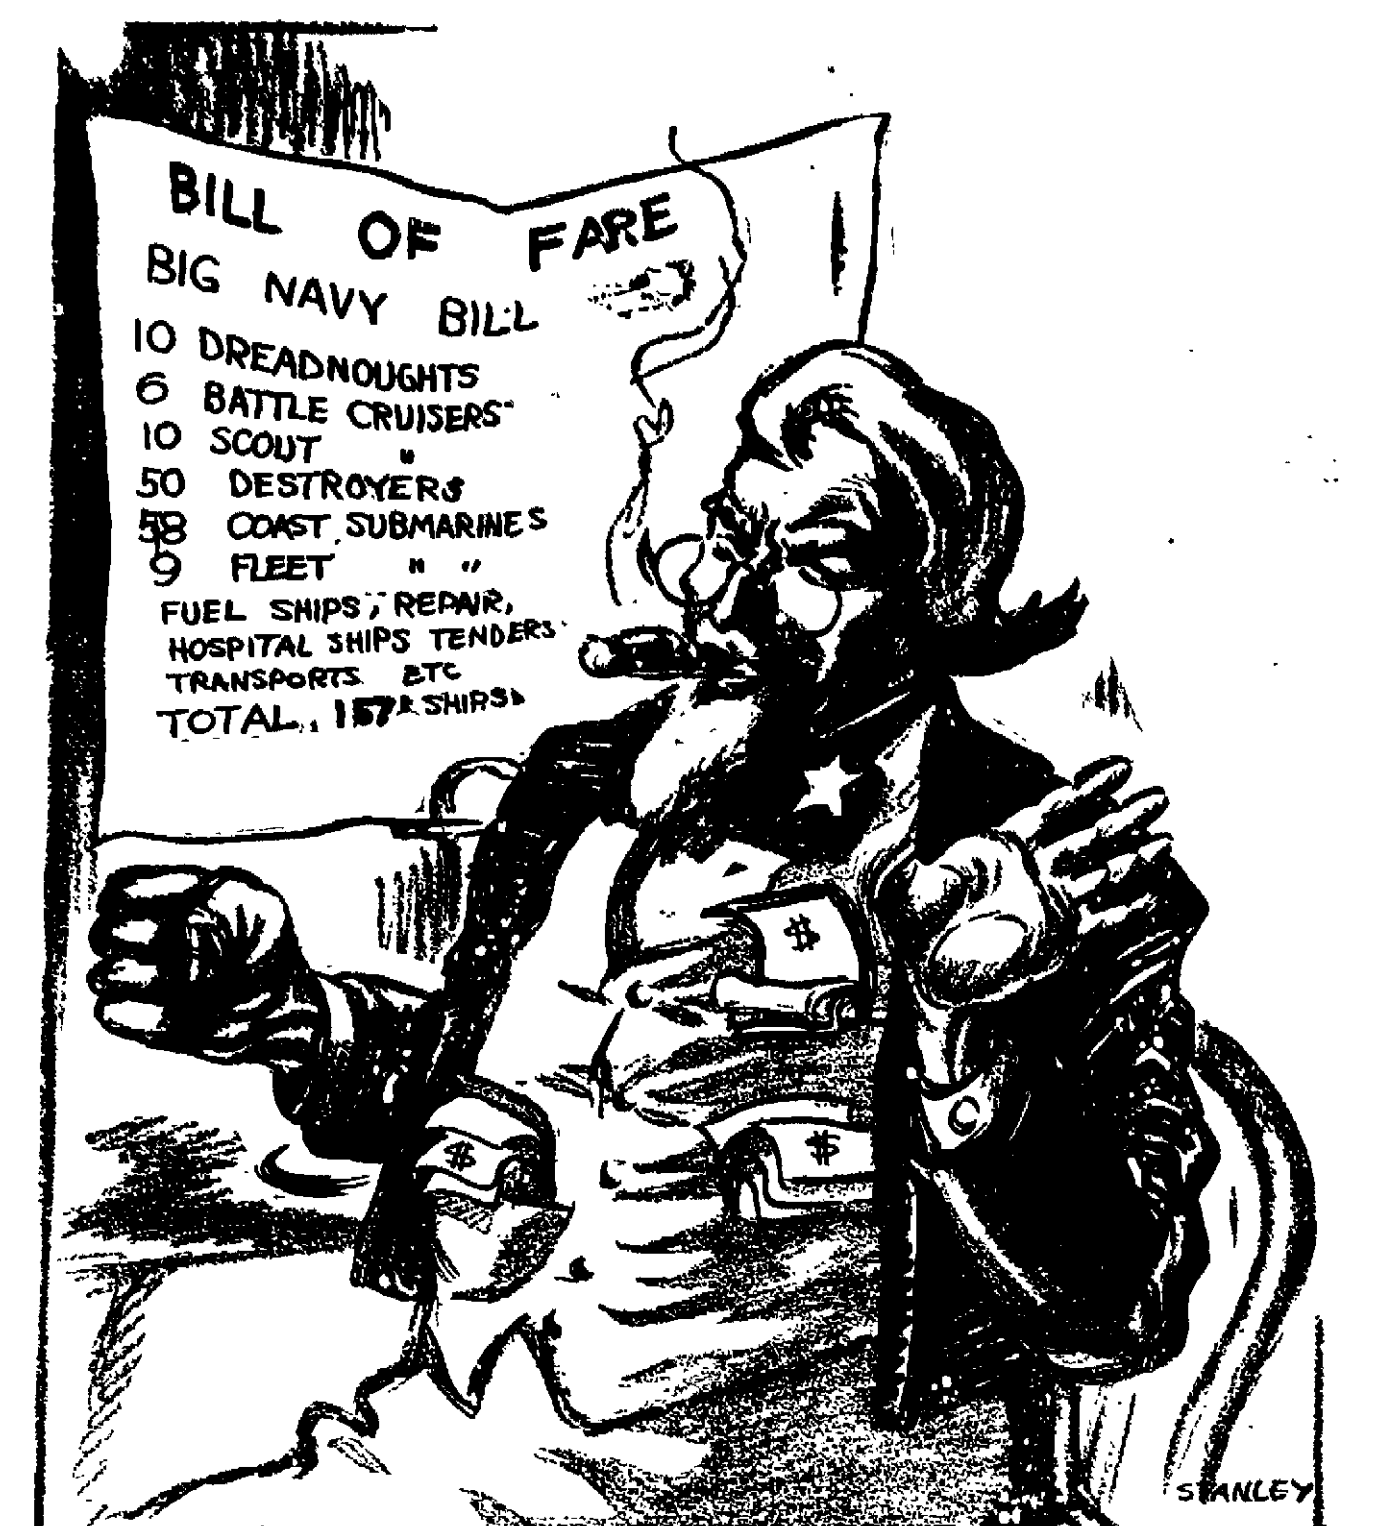

If the Republicans really believed that Mr. Hughes would eliminate the pork barrel he couldn't get a corporal's guard to work for his election.—Rochester Herald.

In War Time.

"Why is it we don't hear any more complaints about defective life-preservers on ships?"
"Nobody has time to put them on."—Judge.

Scientists in both France and Germany are seriously trying to ascertain if there is any value in the diving rod for locating underground water and metals.

Quaker Quips.

(Philadelphia Record.)

There are none so blind as those who see our faults.
Any man can make an ass of himself, but he needn't brag about it.
The people who have never had any disappointment have never had any ambition.
In midsummer no man is such a coward as to hit the thermometer when it is down.
Man is born to sorrow. About the time our parents stop spanking us, experience begins.

When a big man is mean, he is meaner than a little man. There's more of him to be mean.

A woman may not be able to throw a stone but she can generally be depended upon to cast slurs.

It's always a wise plan to disagree with a man when he tells you what a fool he has made of himself. You never can tell. Many a man bubbles over with enthusiasm who accomplishes just about as much as the usual run of bubbles.

A Little Fun

The Worst Possible.
Jones (to his grocer): "You seem angry, Mr. Brown."
Brown: "I am. The inspector of weights and measures has just been in."

Jones: "Ha, ha! He caught you giving fifteen ounces to the pound, didn't he?"
Brown: "Worse than that. He said I'd been giving seventeen!"—Tit-Bits.

Informed.

A famous scientist was present recently at a dinner at which one of the guests began to deride philosophy. He went on rudely to express the opinion that the word "philosopher" was but another way of spelling "fool."

"What is your opinion, professor?" he asked, smiling. "Is there much distance between them?"
The professor surveyed his vis-avis keenly for a moment, then, with a polite bow, responded: "Sometimes only the width of a table."—Tit-Bits.

CARD FROM MR. FULTON.

Editor of The Advocate:—
I desire to thank the Democratic voters for their splendid support of me for the office of Secretary of State. It was their vote and influence that made it possible for me to get the nomination. I also want to thank the Democratic Executive Committee of Licking County for their endorsement because it was their initiative that so much helped me. If elected I will try to fill the office not only with credit to myself but to those who entrusted the office with me.

Dear Aunt Caline:—Do you remember Victorie Mullens, what keeps the bak'ry shop an' sells her home-made bread an' pies an' such? Well, I met her 'tother day an' she looked turrible holler-jawed an' worrit, an' no wonder; she's had a ren' stove trofy. One Saturday recent her stove aeted up terribel, an' that her biestest day. So she got on her knees in front of it an' blowed an' blowed to try an' make it go, which she done, but with the last blow, some way or tother, her false teeth flew outen her mouth rite into the fire. She was just desperat an' burned her hand rite bad trying to grab 'em out. My. She said no one knowed how orful she felt, seein' them good teeth goin' to rooin. But at last she got 'em ketched tight in her hair-curler but they'd got all sort of soft an' wabbly an' when they was cold they wouldn't fit her mouth no way at all. One Doc Toothaker an't due on his annual trip till a month yet an' thes poor Victorie's livin' on soup, besides bein' so embarrassed. I was aeted up terribel to hear o' your oshun trip. Do be keeful o' sharks, Aunt Caline. I be sendin' you some real spruce gum made rite to the Center fer you to take on your trip. They say it be real settlin' to the stum-mick.

Did You Know
That the most complete system of sun-worship we have any account of is that existing in Peru when discovered by the Spaniards in 1532? The Incas, as the Peruvian monarchs are called, claimed to be children of the sun and his representatives on earth. Their government was a despotic theocracy of which the Incas were both high-priest and king. The sun alone did not absorb the devotions of the Peruvians. There was little in nature that they did not contrive to make a deity of. The moon, the planet Venus, the Pleiades, and the remarkable constellation of the Southern Cross, were minor deities. The rainbow and lightning were worshipped, as were also fire, air, earth and water.

Davidson—Weisgerber.
Miss Elizabeth Josephine Weisgerber, daughter of Mr. and Mrs. E. H. Weisgerber of North First street, and Mr. William Ross Davidson, son of Mr. and Mrs. J. W. Davidson of Elmwood avenue were married Saturday evening by Rev. Charles H. A. Watterson at the parsonage of the Church of the Blessed Sacrament in East Main street. They were attended by Clarence A. Bowman and Miss Bess Taeler. After the nuptials had been solemnized a reception for the immediate families of the contracting parties was held at the home of the bride's parents.

The bride looked charming in a traveling suit of the new moleskin shade with a fall hat to match. She carried a bouquet of white roses. The bridesmaid, Miss Taeler, wore a suit of old rose silk with a fall hat to match and carried a bouquet of pink roses.

Mr. Davidson is one of the city's well known young business men and has been connected with the John J. Carroll store since coming to this city from Frazesburg ten years ago. At present he is in charge of the linen department of the Carroll store and is one of its able and valued employees.

Mrs. Davidson is a graduate of the Newark High school and for several years has been connected with the sales department of the Clouse & Schawker millinery store in Third street. She has a pleasant personality which has endeared her to many friends. Both Mr. and Mrs. Davidson are members of the Centum club and are active in its social functions.

The newly wedded couple, accompanied by Mr. and Mrs. Ernest Williams of North Fourth street, left Saturday evening on a two weeks' auto trip to the East and will visit New York, Washington, Baltimore, Philadelphia and Atlantic City. Upon their return they will reside in a cozy furnished home in North Fourth street, recently purchased by Mr. Davidson, where they will be at home to their friends after Oct. 1.

Vanarsdale—Forgraves.
Mr. Harold Vanarsdale and Miss Reva Faye Forgraves were united in marriage Saturday afternoon at 2:30 o'clock at the home of the officiating minister, Rev. A. B. Cox. They were accompanied by Mrs. George Hughes, aunt of the bride. They will be at home to their friends at the home of the bride's grandfather, Mr. Byron Shaw, 232 North Vine street.

The newly organized D. L. D. club held a delightful picnic at Penic Rocks yesterday afternoon. Seven games and contests were enjoyed, especially the bean contest, in which Miss Gohrle Imhoff carried away the high honors.

Those in the party were: Misses Goldie Imhoff, Daisy Steinmann, Myrtle Houch, Kessel Roesser, Amelia Verheyen, Mary Driscoll, and Margaret Morris. Messrs. Gerald Heimke, Jimmy Wells, Ora Stevens, Edward Smales, Dewey Cook, Chester Cocconour and Raymond Cramer.

The Baker family reunion was held at the home of H. W. Colville, ten miles east of Utica, August 16th with a large attendance. Since 1906, when the double golden wedding of Mr. and Mrs. S. H. Foster and Mr. and Mrs. Nathan Duke was celebrated at Centerville, Ohio, there has been a reunion held at various places each year, the two sisters being the center of the descendants attending and they both have answered the death call this last year.

While there are many new ones added to the list, there have been five deaths in the last year.

Those present at the reunion were Mr. and Mrs. H. W. Colville and son Frank, Mr. and Mrs. Charles Byrner of Ostrander, O., Mr. and Mrs. J. T. Hughes of St. Louis, Mo., Mr. and Mrs. Charles Belt, Mr. and Mrs. C. Case, Mr. and Mrs. Harry Case and daughter Marcella of Croton, Mr. and Mrs. C. E. Dixon of Utica, R. GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?'"

"I bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARENCE MORRIS, 22 Russell Street, Taunton, Mass.

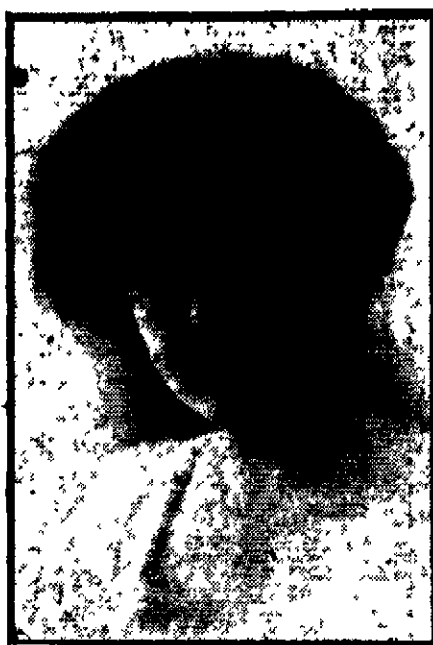

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

H. Foster and son Frank of Centerville. Each one enjoyed a bountiful dinner after which the guests were called to order by the president and it was decided to hold the reunion next year at the home of Charles Byrner at Ostrander, O., the third Wednesday in August. Chas. Byrner was re-elected for president and Eva L. Penick of Newark, secretary and treasurer.

The wedding of Miss Orena Watts of Gallipolis and Mr. Delbert Adams of this city will be solemnized Tuesday at noon at the home of the bride's parents. Among the guests at the wedding will be the bridegroom's mother, Mrs. T. E. Adams and Miss Frances Powell of this city. Mr. Adams is associated with his father as a gardener.

BROWNFIELD GOT WRONG CAR; CHIEF UNTANGLES MIXUP.

Chief of Police Sheridan late Saturday night was asked to find an automobile belonging to Fred C. Evans, which, the owner said, had been stolen from in front of a confectionary store in West Park place. The chief went to the place where the machine was last seen and discovered a car almost identical with the stolen car, standing in front of the store.

He took the license number on the car and looking it up in the license book, found that the license had been issued to Joseph Brownfield. The chief called Mr. Brownfield and learned that the wrong machine had been taken.

"I wondered what was wrong with the car," Mr. Brownfield told the chief. "It didn't work like my machine." Today Mr. Brownfield is trying to explain to his friends the mistake.

Last year the fisheries bureau of the United States distributed more than 3,500,000,000 baby fish and 500,000,000 eggs to the inland waters of the country.

BEAUTY OF WEST IS ENGLISH COUNTESS

The Countess of Cottesham.

Miss Patricia Burke, the daughter of the late John Humphreys Burke of California, recently married Lord Cottesham at St. George's church, London. Lord Cottesham, the bridegroom's fifteen-year-old son, was best man. Miss Burke had been the acknowledged beauty of California and was prominent in the social circles of New York, Paris and London. Lord Cottesham's family name is Pepsys and he is a descendant of Samuel Pepsy, one of the illustrious figures of seventeenth century literature, whose diary has been so entertaining a guide to the social life of his time.

Granville

[Special to The Advocate]

Granville, Aug. 21.—Scores of Granville people feel that in the passing of Dr. J. A. Mitchell of Newark, they have lost not only "the beloved physician" but a valued friend as well, and the sympathy of the whole community goes out to the bereaved wife, and the sons who made many friends during their course at Denison.

Sunday guests at the hospitable home of Mr. and Mrs. E. J. Dorsey in West Broadway included Dr. and Mrs. B. E. Lindsay and little daughter Jane of Columbus, and Mr. and Mrs. Townsend Jury of Jacksonville. Miss Jury expects to enter Sheppardson college next month.

The Effect of Care in Dress.

The stout woman should study the effect of dress; by so doing she will be able to overcome to a certain extent, the appearance of stoutness.

To my mind the face and chin are the members that first convey the truth to those you meet. The manner in which you dress the neck will either enhance or reduce the stout appearance.

The wearing of high tight collars does not permit of a free circulation, and in consequence impairs the complexion, causing a puffiness of the features.

If the face is too fat it is usually accompanied by an equally fat body. The cause of obesity is a too abundant accumulation of fat in the cellular tissues of the body, and when not hereditary, it arises from numerous causes, such as, over-indulgence in sweets, and fatty foods, or possibly, want of sufficient and proper exercise.

A short brisk walk before breakfast is not only a tonic, but a flesh reducer as well. Should the weather be unfavorable for a walk take some good indoor exercises, with dumb-bells, Indian clubs, or calisthenics, before the corset is donned.

It means a great deal of time and patience if the stout woman would keep her flesh within fashion's boundaries.

The present day mode of hair-dressing does not permit of straight lines, and in consequence, artificial means must be resorted to. Heated iron should never be used for curling the hair. Their use will injure the hair follicles, causing the hair to split, become dry and come out.

The hair can be very prettily waved by the aid of soft kid curlers. They are old-fashioned but not injurious to the hair.

If one finds difficulty in keeping the hair curled even when it has been done in kid curlers, moisten the hair lightly with glycerine and rose water. This solution causes it to become a trifle sticky and more adaptable to the curling process.

Every Day Etiquette

"I want to send out some dinner invitations soon and would like to ask you how long before the dinner they should be sent out," said Katherine.

"It is customary to send dinner invitations out ten days before the event," answered Florence.

"I have seen so many people eat club sandwiches in different ways that it has often caused me to wonder whether it is proper to cut it up or take it in the fingers," mused Irene.

"And another thing I am not certain about is, when I am dining in a hotel, should I say 'thank you' to the waiter when he helps me to sugar and cream, etc. to eat a club sandwich?"

"The proper way to eat a club sandwich is to cut it up with the knife and eat with the aid of a fork. Sandwiches may be nibbled from the fingers. Of course, you should not eat from the fingers."

should thank the waiter amiably as you would any servant when waiting on you."

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound."

You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

Our Boys and Girls

Here is a simple menu for a child's birthday party: Cups of veal bouillon, educator crackers, creamed chicken, bread and butter sandwiches, cutting sandwiches in fancy shapes, roll some and tie with colored ribbons; junket in little fancy moulds, such as hearts, little clovers and others; have all sorts of fancy shaped small cookies to attract the little tots.

A plain birthday cake with white frosting, tiny candles for each year, placed on a platter, with the burning candles and surrounded with gay flowers, will be a delight to the children. In the finger bowls for each child, a little magic Japanese flower may be placed just before serving, that the little ones may watch the flower open in the water.

This is the recipe for the birthday cake: One cup sugar, 5 egg yolks, one-quarter teaspoon salt, three-quarters of a cup flour, one-half teaspoon cream tartar, six egg whites, one and one-half tablespoons of orange juice; heat yolks until lemon colored and thick; add sugar and flavoring and continue beating. Mix and sift flour and cream of tartar four times; cut and fold in stiffly beaten whites alternately with flour. Bake in an angel cake pan one hour in a moderate oven.

"An Old Drinking Soak" Expresses Much Gratitude

"I want to thank you and the Neal Institute for what you have done for an old drinking soak," writes a man to the Superintendent in charge of the Neal Institute.

"I am getting along fine; never felt better in my life, and don't care for drink of any kind. I have not lost ten minutes' time since I left you and have enough work ahead to last a year."

Altho names are never revealed, this former hard drinker is so enthusiastic over his restoration to self-mastery that he adds, "You can refer any inquirers to me."

Three days of the Neal Treatment will change craving for liquor into intense dislike of anything alcoholic.

The Neal Treatment is a physician's harmless vegetable remedy taken internally, with no dangerous hypodermic injections. (Resistant to publicity.)

LABOR MEN

SELECT TERRANCE DEVLIN AS CHIEF MARSHAL OF LABOR DAY PARADE.

Celebration Will Be Held at Mound-Builders Park—Program Includes New and Novel Features.

Terrance Devlin has been chosen chief marshal of the big Labor Day parade, to be held Monday, September 4. His aides will be Kenneth Jones, and H. F. Bassett in the first division, Joe Zack, Irwin Conn and A. J. Bingham in the second division. They will work out some features that will make the parade more impressive, and from reports gathered from the various labor organizations, the line of march will contain a larger number of union men than any heretofore held.

The parade will form on Church street, with the first division on North Second street and the second division on North Third street. It will move west on Church to Third, south on Third to Second, east on Second to South Park, west on South Park to Third, north on Third to West Main, west on West Main to Union, thence to the fair grounds and disband.

The amusement committee has not announced its part of the program but it is safe to say that the events will prove interesting and entertaining and many amusements not heretofore featured. All prizes awarded will be paid in cash, and the amounts will be sufficient to lend zest to the contests.

The speaker, who will make an address in the afternoon, cannot be definitely announced, but it is likely to be John O'Neil, of Columbus, affiliated with the molders, and a prominent officer of that organization. Mr. O'Neil is one of the best versed men in unionism and has the flow of speech and gift of oratory that fills his hearers with enthusiasm. If it should be impossible for him to be present, some other equally noted speaker will be secured.

There are several good and sufficient reasons for holding the celebration at the Licking county fair grounds. First, Labor Day is essentially the laboring man's day, and has been set apart by legislative action as a legal holiday, and adopted by the labor organizations as the one day in the year when they shall rest from their labors and gather themselves together to dance and sing and make merry. There is no more ideal spot in Ohio than the Licking County fair grounds, or Mound-Builders park, for just such a gathering. There is plenty of shade, ample room to accommodate any number of people, and one of the best dance pavilions to be found anywhere. There are rest rooms, toilet conveniences, and hundreds of beautiful shady retreats to spread a family picnic dinner and enjoy the out-door air and sunshine.

The celebrations in late years have been held down town, around the square. The sidewalks and streets become congested, women and children are jostled about in the crowds, and the litter and filth that accumulates in the business center does not appeal to the aesthetic or make for good sanitation. A resolution has been adopted by the proper authorities prohibiting just such gatherings as Labor Day celebrations from being held around the square and the action meets with the endorsement of the labor organizations. It would be just as sane to hold the Merchants and Farmers annual picnic on the public square as to hold the Labor Day celebration there, and for that reason the committee having in charge the coming celebration is confidently expecting the largest turnout of any Labor Day celebration in the history of Licking county, and they ask hearty co-operation of all friends of labor to that end.

IS IT "JUST A COLD"?

Newark People Should Ask Themselves This Question.

Don't say: "It's just a cold." It may turn into backache, rheumatic aches, achy joints. Or other serious sickness that comes from weak kidneys. Colds are due to congestion. Congestion makes the kidneys overwork to filter the blood. Colds often leave the kidneys weak.

First break the cold: Then use Doan's Kidney Pills to avert the kidney dangers.

Let this Newark woman tell you about them: Mrs. J. M. Conrad, 181 E. Main St., Newark, says: "It might have been a cold settling on my kidneys that caused my kidney trouble. I had dull pains across my back and was weak and ailing all over. One box of Doan's Kidney Pills cured me of the backache and put me in good health."

ZANESVILLE GIRL SUFFERS FRACTURE OF JAW IN ACCIDENT

Miss Grace Vogel of the North river road, and Louis Highfield of Norval park, Zanesville, were injured when they were thrown from a motorcycle east of the city Sunday evening about 8:30 o'clock.

They were both brought to the Newark Sanitarium, where it was found that Miss Vogel had suffered a broken jaw, a cut over the left eye and other bruises. Mr. Highfield was bruised but was not seriously injured and left the hospital after his injuries had been dressed. Miss Vogel was rendered unconscious and did not regain consciousness until after midnight.

The couple had been to Columbus on a motorcycle trip and were returning home. A short distance east of Newark while coasting down a steep hill a dog ran in front of the machine, throwing them off.

none the less impressive, the stock touching 84 before noon. Shipping stocks continued in favor, with new high records for Marine common and preferred at 39 3/4 and 104 respectively. Atlantic Gulf and West Indies achieving the same distinction in the rise to 73, with further gains in Pacific Mail and United Fruit. All branches of the list were included in the movement except rails, Reading and Union Pacific furnishing the only strength in that quarter. Motors registered gains of 2 to 4 points, with 1 to 2 for equipments, coppers and other active specialties. Bonds were steady.

Steel, Reading and prominent equipment featured the final hour, all at further material advances. The closing was strong.

Despite the more critical developments in the railway situation prices of leading industrials and numerous specialties mounted higher today, with new records for shipping shares.

DR. JOHN A. MITCHELL

(Continued from Page 1.)
band's death and Dr. Hunt together with Paul Mitchell are on their way back to camp.
The message to this city late Saturday night was a great shock to the many friends of Dr. Mitchell and all day Sunday anxious inquirers as to the details of the drowning were made, but nothing definite could be ascertained.
The telegram announcing the death of Dr. Mitchell not only shocked his family and hundreds of friends but meant as well a great public loss.

Dr. Mitchell was of Scotch-Irish ancestry, old Presbyterian stock, the son of John and Ellen Mitchell who moved from Baltimore, Md., to Apple Creek, a small town in Wayne county, in the fifties, there establishing woolen mills.

Dr. Mitchell was born there on Aug. 4, 1852. He attended the country school in his early youth with his brother Louis, who afterward became a Presbyterian minister.

As a youth he helped his father in the manufacture of blankets. Later he attended an academy near Cleveland and then became a student in the Homeopathic Hospital College in Cleveland, from which he was graduated in 1880.

He came to Newark in 1881 to practice medicine and then began a life of public usefulness. He at once gained a practice which constantly grew.

Always a student, Dr. Mitchell spent a part of each year attending lectures and clinics and visiting the hospitals of the large cities of this country. The years 1900 and 1901 he spent in Berlin and Paris studying. He was a skillful surgeon, a clever diagnostician and a wise doctor. He was instrumental in establishing a city hospital in Newark and largely helped maintain it. His private hospital, established in 1895, afterwards became the City hospital.

At the time of his death he was chief of staff of the City hospital and president of the County Medical Society.

There was no project for the public welfare that did not have his quick and hearty support. His ready sympathy, watchful care, his self-forgetfulness, made him the nearest friend in hundreds of homes. While his qualities as a fisherman and hunter made him the most desired companion by men on their summer or winter vacations.

Mrs. Mitchell and her sons, Paul of Pittsburgh, and Dr. Louis A., of this city have the sympathy of everyone who knew him, for each feels a personal loss in the passing of Dr. Mitchell.

For a number of years the deceased was president of the Y. M. C. A., and only recently was actively engaged in the campaign to raise funds for this institution. He was a member of Newark Masonic Lodge No. 97.

SETTLEMENT

recommendations to congress probably in his next message in December.

As the railroad presidents entered the White House, Hale Holden, their spokesman, said the executives already had sought to maintain open minds on the entire question, but that after President Wilson had explained his plan thoroughly to the new arrivals consideration of all questions involved would be begun with the object of reaching a final decision.

As It's Done Now.
"Professor, I want to take up international law. What course of study would you recommend?"
"Constant target practice." —Louisville Courier-Journal.

Chicago is said to have the lowest death rate from typhoid fever of any American city or more than half a million population, 5.4 being its index number, as compared with Boston's 5.5, New York's 6 and larger figures for the rest of them.

The Bethlehem Steel Company has recently instituted a scientific system of washing its 3,000,000 windows whereby the cost is reduced to about one-fifth of what it formerly was a unit of window space.

A Kansas City newspaperman, who is able to go in for fancy farming, has more than 70 varieties of iris growing in his yard and garden. The colors include yellow, blue, pink and bronze.

Paul Kenneth Endter.
Paul Kenneth Endter, aged 11 years, died Saturday evening at the home of his uncle and aunt, Mr. and Mrs. I. P. Hoodlet, 39 Clinton street, after a lingering illness. He is survived by his mother, who is also seriously ill at the home of her sister, Mrs. Hoodlet. Funeral services took place this afternoon at 1:30 o'clock and interment was made in Cedar Hill cemetery.

Mrs. Mary Miers Drumm.
Mrs. Mary Miers Drumm, aged 92, died Sunday morning at eight o'clock. She was born July 7, 1824, in Licking county, the daughter of Peter and Susanna Miers. She was united in marriage to Enoch Allen Drumm and five children survive that union. They are Samuel Drumm, Mrs. Harvey Irwin, Mrs. George Tavenner, Mrs. George Adams, and Sarah Drumm of the home. She leaves 13 grandchildren and 12 great-grandchildren; and one sister, Mrs. Minerva Hursey of Gratiot, Ohio. Mrs. Drumm lived in Madison township, three miles southeast of Newark. The funeral will be held and interment made at the Poplar Fork church at 2 o'clock sun time Tuesday.

Card of Thanks.

Light as Chaff

The Scornful Caddy.
Jones' opinion of himself as a golfer was very much greater than his skill warranted.

Recently he was invited to play on a certain famous Scottish ground as a visitor. Armed to the teeth with clubs of all sorts and sizes, he set off and, followed by a caddy, proceeded to play.

He buried his ball in every bunker, gully and bit of landscape and muttered naughtily. After half an hour of it he turned to his silent caddy.

"Really," he murmured ingratiatingly, "this is the most difficult course I have ever played on."

"Hoo did ye ken?" replied the lad in quiet scorn. "Ye hevna played on it yet!"

A Welcome Visitor.
The new minister was invited out to supper. He was a bachelor, and when he helped himself to the biscuits for the third time he looked across the table at the hostess' little girl.

"I don't often have such a good supper as this, my dear," he said in his most propitiatory tone. "We don't either," said the little girl, smiling. "I'm awful glad you came." —Christian Herald.

Different Atmosphere.
Flanagan sat on his front doorstep enjoying the balmy freshness of the spring evening.

Presently his neighbor, Murphy, passed by the fence for a chat. "A foine av'nin'," said he pleasantly. "But why isn't Mrs. Flanagan wid ye enjoyin' the air?"

"Sure, Mike," replied Flanagan, "the missus has gone for a change av air."

"Has she, now?" replied Murphy, interested. "And Oi hope the change will do her good. And where was she after goin' to the shore, Oi suppose?"

"Then ye suppose wrong," Flanagan informed him. "Sure, an' isn't she seated at this moment on the back door step?"

Ready Politeness.
Gertie had been to a party, and mamma said when she returned:

"I hope, Gertie, you said 'No, thank you,' oftener than you said 'if you please.'"

"Course I did, mummie. I hadn't been eating more than half an hour before they began saying 'Don't you think you've had enough?' and 'Aren't you 'fraid you'll make yourself ill?' and I said 'No, thank you,' every time."

PROMINENT WOMEN ENDORSE OUR STATEMENTS.

Newark, Ohio.—"I had a very satisfactory experience with Dr. Pierce's Favorite Prescription. I was poorly, dragged out, tired out and had female trouble. I was persuaded to use several bottles and it put me on my feet. I gained in weight and strength and became quite well under this treatment." —Mrs. Geo. S. Lewis, 308 Wilcox St., Newark, Ohio.

Newark, Ohio.—"I have had a most satisfactory experience with Doctor Pierce's Pleasant Pellets. For over ten years we have found them a reliable and efficient remedy for biliousness and constipation. You may say I recommend them." —Mrs. L. M. Wells, 62 Buena Vista St., Newark, Ohio.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. FINDS IN WAR FULFILLMENT OF PROPHECY

DR. WILKINSON OF WASHINGTON BELIEVES JESUS REFERRED TO PRESENT STRUGGLE.

Elder Lindsay of Cleveland Discusses The Millennium. Dr. Kress Talks Tonight on Infantile Paralysis.

Facing one of the largest audiences in the history of this city, Dr. B. G. Wilkinson, of Washington, D. C., spoke last evening at the Adventist camp in Moundbuilders park on "The Far East Against the Far West."

The doctor claimed that the only authority in the world that gives the true light on the situation as it exists in Europe today, and from today into the future to the end of time, is God's book, the Bible. Applying himself to the subject in hand, the doctor said in part: "This present war was foreseen by the Saviour's prophecy in answer to the apostle's question, 'What shall be the sign of thy coming, and the end of the world?' Jesus answered, 'Ye shall hear of wars and rumors of wars... for nation shall rise against nation and kingdom against kingdom... but he that shall endure until the end, the same shall be saved.' Wars being, then, a sign to speak to us down the pathway of history concerning the approach of the Saviour's return, Christ must have included in them this present great war which is acknowledged by all to be the greatest which was ever let loose upon humanity. In the words of an ex-president, 'The crisis of the ages has been reached.'

"According to the prophets, this present titanic struggle was designed to sweep away from among men a terrible deception. Men and nations had come to believe that the age of war was passed. Thus says the prophet Micah: 'But in the last days it shall come to pass... and many nations shall come and say, come let us go up to the mountain of the Lord... and he shall judge among many people, and rebuke strong nations afar off; and they shall beat their swords into plowshares, and their spears into pruninghooks; nation shall not lift up sword against nation, neither shall they learn war any more.' (Micah 4:1-3). Taking this prophecy as a starting point, many writers and thinkers whose optimism exceeded their close study of prophecy, failed to notice that this prophecy was foretelling what the nations will say, not being a prophecy of what God said, and so concluded that there would be war no more. It is said that William J. Bryan had a certain number of swords beaten into plowshares as a paper weight some time before the present conflict. Had stricter attention been given, those who were so anxious to take optimism for reality would have read exactly the opposite as a prophecy from God in Joel. 'Proclaim ye this among the Gentiles,' he said, 'prepare for war, wake up the mighty men, let all the men of war draw near; let them come up, beat your plowshares into swords and your pruninghooks into spears; let the weak say, I am strong.' (Joel 3:9-10). 'Prepare war,' so the United States has just passed a great navy bill which before this war it would have been impossible to have accepted. 'Wake up the mighty men,' so President Wilson has waked up, but they have not yet awaked Mr. Bryan. 'Let the weak say I am strong,' so Japan now thinks she's the mightiest nation in the world where but a little time ago she was considered a weak nation. The present war then sweeps away a widely cherished delusion.

"The present war by sweeping Turkey out of Europe prepares the way for the coming of the mighty East. Joel said, 'Let the heathen be awakened.' Up to 1852 Japan stood with her back turned to the ocean refusing intercourse with all nations, but in 1852 Commodore Perry delivered his calling card to Japan in the shape of a cannon bullet. Immediately thereafter treaties of commerce were signed. The United States was called upon to reorganize Japan's educational system; France reformed the Japanese army, and England to establish the Japanese navy. Surely the heathen was being awakened.

"Then comes Revelation 16:12,

"And the sixth angel poured out his vial upon the great river Euphrates, and the water thereof was dried up, that the way of the kings of the East might be prepared. In prophecy a river stands for the country through which it runs. The Euphrates runs through Turkey. Turkey was to be dried up that the way of the kings of the East might be prepared. With the overthrow of Turkey, therefore, we may look for the coming of the kings of the East.

"Will Japan fight America?" said Mr. Marr, leader of the Republicans in the House of Representatives, October 1, 1914: 'I have no doubt that it is as certain as the sun will rise tomorrow that a conflict will come between the far East and the far West across the Pacific Ocean.' Said Mr. G. Bernard Shaw, one of the 20th century's foremost writers, 'Just exactly what the present war is about is susceptible of a dozen answers, but in the conflict of the future... there will be no difficulty in arriving at the explanation. That will be a war of races and civilization; the East against the West.'

"At the 3 o'clock hour Elder R. S. Lindsay, of Cleveland, spoke on "The Millennium.—What awaits the world in the near future? It is peace, or utter desolation and doom?"

The elder said in part: "Permanent peace will never exist between earth's nations until the Prince of Peace takes the scepter and reigns. For more than two years all Europe has been in the grip of the most terrible and colossal struggle of history. All Europe has been, and is, deluged in the blood of husbands, fathers and sons, while wives, mothers and poor innocent children are left to struggle and starve in circumstances indescribably sad and deplorable.

"Surely the words of the prophecy recorded in Isaiah 50, 'A sound of battle is in the land and of great destruction,' are meeting their fulfillment. But in the face of 35,000,000 men who have been under arms during this awful war, people are crying that peace, disarmament of nations, and abolition of war will soon be realized. This peace cry also fulfills the words of God's prophets of old. A prediction in Jeremiah 6:4 states that the people would cry peace, peace, when there is no peace, and the great apostle Paul warns us, when they shall say peace and safety, then sudden destruction cometh upon them. 1 Thess. 5. But the Bible prophets predict for the future a universal battle which will be fought just prior to Christ's second coming. This fearful conflict between all nations of earth is coming in this generation and the cry of peace, the talk of a temporal reign of Christ for one thousand years, and the conversion of the world is all vanity. While the gospel will be preached in all the world for a witness, the Bible plainly teaches that at Christ's second advent, the world will be as wicked as in the days of Noah, and the great coming destruction will befall the people and but few will be saved as in the days of the flood.

"It is very evident in this generation of wholesale murder and transgression against God that the world is not growing better, but evil men and seducers have waxed worse and worse. The fulfillment of the words of Paul in 2 Tim. 3:1-5 is now before our eyes, for he said, 'This know that in the last days perilous times shall come' and tells us that men should be lovers of pleasure more than lovers of God, having a form of godliness, but denying the power thereof.

"In Revelation, chapter 20, we read of a millennium of peace to be ushered in at the second personal and literal coming of Christ. The thousand year reign of Christ cannot commence until then, for those saints who are to reign with Christ must first be raised from the dead.

"This will transpire at the coming of the Master. The righteous living will be caught up into the air with the saints who are brought from their graves in that first resurrection, but the wicked will be slain by the brightness of Christ's coming to come forth in the second resurrection. This resurrection will transpire at the end of the millennium.

"During the millennial reign which will take place in heaven to which Christ will take his people when he comes again, the earth will be desolate and chaotic with no inhabitants save Satan who is left alone on the dark, ruined earth to rebound by a chain of circumstances, for he has no soul to tempt, and deceive, no one with which to continue his work.

"Christ and his people on thrones of judgment will judge the wicked during the millennium and will be within the city of New Jerusalem when it descends to earth at the close of the one thousand years. Then the wicked will come forth from their graves and surround the city of God in a vain attempt to take it.

"The Bible says fire will come down from God out of heaven and devour them. Peter tells us that this fire will melt the earth and all the works thereof will be burned up and that God will renew the earth and restore it to its Edenic beauty.

"This new earth will be the home of the redeemed and after sin has thus been blotted out the fullness of Christ's kingdom will have come and His will shall be done in earth as it is in heaven."

At the second meeting of the conference session held Sunday morning, the reports of the treasurer of the conference, H. D. Holton, of Mount Vernon, Ohio, and J. I. Cassell, the tract and missionary secretary, were rendered. The report of the treasurer showed an increase in funds received for 1915 of over ten thousand dollars over the 1914 report.

Seventh Day Adventists support their evangelical work in the world with the Bible system of tithing, and free will offerings. This means that with this people it is a fundamental principle to turn over into their treasury one-tenth of their income. Besides this comes their free will offerings. For 1915, the people of the Ohio conference of Seventh-day Adventists turned in tithes to the amount of \$44,127.18, and free will offerings to the amount of \$22,992.12. Other funds turned in

TENTS CARRIED AWAY BY STORM AT CAMP MEET

Traveling from the southeast, a small hurricane at 3:30 o'clock Saturday afternoon swept through Moundbuilders Park demolishing tents in which families were quartered, wrecking a tent 60 by 30 feet, tearing the big assembly tent from the outer edge to the center pole, drenching and partially ruining its contents, including an organ and other fixtures, putting the electric light service totally out of commission, and twisting from their roots three giant

ash trees which have stood in the park since time primeval. Aside from several minor injuries to occupants of the tents, there were no casualties.

The tents were part of those used by the Seventh Day Adventists who are holding a state conference and camp meeting at the park.

The whirlwind came during the electrical and wind storm which struck Newark about 2 o'clock Saturday afternoon. According to witnesses, it seemed to enter the grounds at a point between the Union street entrance and the old hotel building. It swept past the northeast corner of the theatre, blowing down one electric light column and slanting several others in various directions, tearing from its roots an ash tree near the pedestrian entrance, wrecking a

large tent used for living purposes, lifting and partly destroying ten other small tents used for residences, making several large tents in the assembly tent, and blowing down two other large ash trees further up in the park. One of the trees fell within 25 feet of a row of tents in the section of the park near the stables north of the mounds.

The damage did not prevent the holding of the regular evening meeting.
